

CURRENT ISSUES IN YOUR INDUSTRY /PROFESSION

Pick two or three issues that are of current or recent concern within your shop area. These issues could be related to health, safety, wages, benefits, job growth or decline, legislation, training and education, technological advances, etc.

You will have a couple of options for presenting what you have learned. You may either write a one page double spaced paper, a two page hand written paper, or give a two minute presentation in front of class with some type of visual component (poster, power point, prezi etc.)

You may find and research these issues by looking at trade magazines, online articles, newspaper articles, or videos. You may also interview those working in your field. If you are doing an interview you should come up with 10 questions to ask either in person, or submitted online or via email. You must have at least two sources of information. For each source provide the following information:

Source 1

1. Article/Broadcast Headline if :
2. Date of Article/Broadcast / Interview:
3. Location of event:
4. Source of article/broadcast or name and job title of person being interviewed:

Source 2

1. Article/Broadcast Headline if :
2. Date of Article/Broadcast / Interview:
3. Location of event:
4. Source of article/broadcast or name and job title of person being interviewed:

What is your opinion or your reaction to this issue? Did the article show you something you didn't think or know before? Explain in a few sentences.
